18 October 2013

Dear Mr Mill,

**RE: Queensland Curtis LNG (QCLNG) Project – Proposed Condition Amendment**

I refer to your letter of 19 September 2013 and thank you for your continued effort and cooperation in streamlining regulatory approval processes for the QCLNG Project.

QGC has considered your proposed amendments as follows:

**Appendix 1, Part 1, Condition 1**

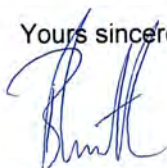

While we appreciate your offer, QGC has found the existing condition reasonable and practical to implement. Given it was agreed at the time of project approval as representing an appropriate level of assurance for the community and that we have found it presents no significant regulatory impediment in its implementation, QGC is of the view that no changes are warranted.

**Appendix 1, Part 3, Condition 1 (4b-d)**

QGC agrees to the removal of these particular subsections for the reasons nominated in your letter of 19 September 2013.

If you have any questions in relation to the above or require further information, do not hesitate to contact Amanda Delaney (Environment) on (07) 3024 7236 or Caleb Yeoh (Social) on (07) 3024 7496.

Yours sincerely,

Brett Smith  
Vice President, Sustainability
