Design for the Yhurri Gurri Framework
Department of State Development, Infrastructure, Local Government and Planning

Cairns Marine Precinct Infrastructure Investment Detailed Business Case

- Detailed Business Case completed December 2021
- Summary document released January 2022
- Identified potential for Common User Facility (CUF)

Reference Projects – Stage 1 VE

- CUF would include
 - 5,000 tonne shiplift
 - 2 blast and paint facilities
 - additional wet berth capacity
 - 3 hardstand areas for vessels up to 120m in length
- Funding commitment

Next steps

- CUF Project Development Phase – preconstruction and long lead-in works:
 - Geotechnical works (on-land and in-water)
 - Land Survey and Potholing Engineering Assessments
 - Site investigations to confirm legal, planning and approval requirements.
- Project Plan for CUF design, development and ownership/operational model.
- Project Plan in consideration of future expansion of HMAS Cairns.
- Intergovernmental negotiating framework to inform engagement with the Australian Government on both Project Plans.
