## Minister's Message

---

Welcome to the seventh edition of Queensland Local Government Comparative Information. The report is produced each year to provide a picture of how Queensland's 125 councils are operating. It is designed as a tool for councils to monitor trends over time and benchmark their performance with other councils.

Your feedback has shown there are better ways to present this comparative data than on paper, which is why this edition is the first to be presented in CD ROM format. I hope it meets your needs and I welcome your ongoing feedback so we can continue making improvements to future editions.

As councils in Queensland work to deliver a more effective and efficient service, they do so with a vastly varied financial capacity – some are dealing with the pressures of a small and diminishing rates base, while others are managing the impacts of massive population growth; especially those councils along the coastal strip.

Last year was certainly an exciting and challenging year for local government in Queensland. It has been fantastic to see councils across the State collaborating on projects and working together to achieve the best outcomes for their communities and regions.

One of the major developments in 2004 was the transfer of administrative responsibility for Queensland's 32 Aboriginal councils to the Local Government and Planning portfolio. Over the next four years, these councils will make the transition to shire councils. A review of the governance arrangements of Torres Strait Island councils will start in 2005.

The Local Government Portfolio is working hard to introduce measures to collect comparative information from these councils to ensure that they are included in future reports.

Once again, this year's report represents a partnership between councils and the State Government. The information contained in it has been supplied voluntarily by 114 of Queensland's councils. It is their contribution to a healthy system of local government that is transparent and accountable. My hope is that all councils will contribute to next year's report.

Hon Desley Boyle MP  
Minister for Environment, Local Government, Planning and Women

# Introduction

2003/04

# Introduction

---

## Background

The *Queensland Local Government Comparative Information 2003/04* provides the most comprehensive collection of performance information available for Queensland local government.

The Report is not designed as a 'ranking table', but rather as a performance assessment tool to assist local governments in the evaluation of their performance through comparisons with each other.

The aim of this Report is to enable each local government to assess, at a broad level, its performance for each activity against the performance of the same activity of another local government, and for local governments to use this assessment of performance to initiate improvement processes through benchmarking with other local governments.

## Benefits

The annual publication of performance indicators provides valuable information on the performance of local governments to both Councils and the communities they serve.

For Councils, it provides information on where improvements may be possible and also helps identify possible benchmarking partners.

For the community, it provides greater accountability and information on which to judge a Council's performance.

By monitoring their performance over time and making comparisons with other Councils, it is hoped local governments will be encouraged to take the initiative and use the comparative performance information to drive improvement throughout their organisation.

## Performance indicators

The Report provides a suite of efficiency, effectiveness and quality of service indicators which cover the following key functional and financial areas of local government:

- financial operations,
- personnel,
- road maintenance,
- water services,
- sewerage services,
- waste management,
- library services, and
- parks and gardens.

Additional financial information, including residential rates and charges, rate revenue and rate arrears for each Council, is also provided.

## Comparability and data interpretation

The Department is focussed on ensuring the published performance indicators are appropriate, practical and meaningful for all local governments. It is recognised that any comparative performance measurement system needs to take into account the diversity of local governments to limit the difficulties that will be encountered in the comparison of local government services across Queensland.

At the same time, the users of the published performance information should exercise care when making comparisons. The performance indicators contained in this publication should not be looked at in isolation. Although the performance indicators highlight differences between Councils' service provision, they do not explain why those differences may have occurred. Users should consider the factors that may influence the performance of a local government when interpreting the comparative performance information.

These influencing factors may be outside of Council control, such as the climate or terrain of the area, or under Council control, such as Council policies and budget allocations. Details of the types of factors that could affect the calculation of each of the performance indicators are provided at the beginning of each section in this report.

Contextual information for each local government, such as elected member numbers, financial assistance grants received, population, population density, population growth, climate, terrain and soil types, is also provided. This data provides a context for the performance information collected and will assist in the comparisons of Councils across Queensland.

In addition, the differences between local governments throughout the State have been taken into account by grouping the Councils according to the Australian Classification of Local Government (ACLG). Appendix B details the methodology used in determining a local government's classification under the ACLG.

It should be noted, the published performance indicators do not necessarily provide a definitive statement of a local government's service performance. Rather, the indicators should prompt a particular local government to review the circumstances that cause it to compare less favourably to another local government.

In other words, the value of performance measurement does not come from this comparative report alone. Performance improvement will only occur if local governments analyse the results of the performance comparisons and implement strategies that will lead to improvements in service delivery.

# Comparative Information – Financial

2003/04

# Financial Information

## – Part 1

# 2003/04

## Financial information

PI F1	Revenue ratio	PI F2	Operating efficiency ratio
<b>Objective:</b>	The revenue ratio shows the percentage of a Council's total operating income (excluding items like capital grants) that is derived from rates and charges.	<b>Objective:</b>	The operating efficiency ratio shows the ratio of a Council's total operating income to its total operating expenditure.
<b>Formula:</b>	$\frac{\text{Net rates and utilities charges income}}{\text{Total operating income}}$	<b>Formula:</b>	$\frac{\text{Total operating income}}{\text{Total operating expenses}}$
<b>Explanatory Information:</b>	<p>This demonstrates a Council's reliance on rate and charges revenue compared with other sources of revenue such as government grants and subsidies or private works.</p> <p>For Councils with a large area and a small population, this percentage can be quite small as these Councils generally receive relatively high levels of grants and subsidies.</p> <p>For urban Councils, this percentage can be much higher.</p>	<b>Explanatory Information:</b>	Nil
<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>	<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

Financial Information	
PI F3	<b>Working capital ratio</b>
<b>Objective:</b>	The working capital ratio shows the ratio of a Council's current assets (items like cash and inventory) to its current liabilities (such as creditors).
<b>Formula:</b>	$\frac{\text{Current assets - constrained works reserve} - \text{unspent loan monies drawn down}}{\text{Current liabilities}}$
<b>Explanatory Information:</b>	<p>The working capital ratio provides an indication of a Council's ability to meet current commitments.</p> <p>A high ratio may indicate a Council has greater flexibility to meet unexpected contingencies.</p>
<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

NS Not supplied.

# Financial Information

## – Part 2

2003/04

Financial information			
PI F4	Rate arrears ratio	PI F5	Capital expenditure ratio
<b>Objective:</b>	The rates arrears ratio shows the percentage of rates outstanding and consequently the effectiveness of a Council's collection of rates and charges.	<b>Objective:</b>	This is the ratio of capital expenditure for the year to depreciation expense for the year and is designed to indicate the extent to which Council is replacing or adding to its capital assets.
<b>Formula:</b>	$\frac{\text{Debtors for rates and utility charges}}{\text{Net rates and utilities charges income}}$	<b>Formula:</b>	$\frac{\text{Property, plant and equipment additions} + \text{closing capital works in progress} - \text{opening capital works in progress}}{\text{Depreciation and amortisation expense}}$
<b>Explanatory Information:</b>	Higher levels of rate arrears may be the result of many factors, including financial hardship in the area or policy towards ratepayers experiencing financial problems.	<b>Explanatory Information:</b>	Depreciation is a measure of the rate of depletion of capital assets. A ratio of around 1 indicates expenditure on capital assets matches the consumption of assets.
<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>	<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

Financial Information			
PI F6	Unfunded depreciation ratio	PI F7	Change in community equity ratio
<b>Objective:</b>	This is the percentage of a Council's annual depreciation expense not funded from current revenue.	<b>Objective:</b>	This ratio indicates the percentage growth or decline in a Council's net wealth over the financial year.
<b>Formula:</b>	$\frac{\text{Unfunded depreciation}}{\text{Depreciation and amortisation expense}}$	<b>Formula:</b>	$\frac{\text{Closing total community equity} - \text{opening total community equity}}{\text{Opening total community equity}}$
<b>Explanatory Information:</b>	<p>The 'funding' of depreciation creates a pool of cash available for spending on loan redemption, asset purchase and replacement. Councils will normally fully fund depreciation. Anything less would be unsustainable in the long-term and would be reflected by a high percentage for this indicator.</p> <p>In the short-term, the need to unfund depreciation may arise for numerous reasons, such as the newness of assets, their method of financing or the size of Council's replacement reserves.</p> <p>In particular, unfunded depreciation may be due to the fact that many Councils have only recently accounted for all their assets and so estimates of useful life of these assets used in calculating the depreciation are not yet easily determined and may be unduly pessimistic.</p>	<b>Explanatory Information:</b>	<p>Normally a Council would expect a small growth in community equity for the year. However, since 1998/99 financial year Councils have recognised assets which did not previously appear in their accounts and this has resulted in artificially high figures appearing for some Councils in the year these assets were recognised.</p>
<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>	<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

⌘ For some Councils rate and utility debtors are not comprised entirely of rate arrears. A proportion may relate to current rates accounts (eg. for supplementary rate notices issued in June 2003 or pensioner rebate amounts outstanding from the State).

↑ Ratio for 2003/04 may be slightly distorted due to variance from previous year's definition for net rate revenue.

\* Aurukun and Mornington do not have any rateable properties. As such, community levies are charged instead of rates.

< Calculation for 2003/04 includes an amount for the first round of water consumption charges under a two part tariff. Prior to this water charges were issued well prior to 30th June.

↔ Total Depreciation and Unfunded Depreciation includes prior year adjustments for Roads. Road network will undergo a review during 2002/03 to determine correct depreciation.

+ Ratio distorted due to inclusion of water consumption charges and special water charges accrued but not yet in arrears. (If affected amount was excluded, the ratio of rate arrears would be approximately 8% for 2000/01 and 1999/00).

#

Non-current assets were revalued at 30 June 2002 leading to a significant loss on revaluation of some classes of assets and increments in other classes.

& The significant write down in Community Equity primarily related to an extensive review of the values attributed to road infrastructure.

> The reduction in Total Community Equity was the result of the recognition of Accumulated Depreciation on Council's road infrastructure which had previously not been recognised.

⌘ Significant increase due to unfunded depreciation including an amount for depreciation charged on road seals from 1 July 1998 to 30 June 2001 as depreciator had not previously been recognised for this item in the financial statements. The depreciation charged on the seals during this time was included as a separate line item in the statements.

⊙ Significant increase due to large recoverable works accounts outstanding.

□ Significant increase due to arrears of rural electrification charge which is levied on participating rural properties.

⊙ Significant increase in equity due to revaluation of road infrastructure assets.

NA Not available/applicable.

NS Not supplied.

# Financial Information

## – Debt Ratios

# 2003/04

## Financial information

PI F8	Debt servicing ratio	PI F9	Borrowing ratio
<b>Objective:</b>	The debt servicing ratio shows the percentage of operating income used to service debt.	<b>Objective:</b>	This ratio shows the relationship between total borrowing and total recurrent revenue.
<b>Formula:</b>	$\frac{\text{Repayment of borrowings and finance leases} + \text{borrowing costs}}{\text{Total operating income}}$	<b>Formula:</b>	$\frac{\text{Total borrowings}}{\text{Total operating income}}$
<b>Explanatory Information:</b>	A smaller percentage indicates the interest expense is less of a burden on a Council's revenue.	<b>Explanatory Information:</b>	Nil
<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>	<b>Note:</b>	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

Financial Information	
PI F10	Net debt per capita
Objective:	The net debt per capita ratio is a measure of the leverage of the local government.
Formula:	$\frac{\text{Current and non-current interest-bearing liabilities} - \text{cash}}{\text{residential population within council boundaries}}$
Explanatory Information:	Nil
Note:	<p>It should be noted that as Councils operate under varying financial management practices and provide a varying mix of services, it may not be appropriate to directly compare one Council's financial ratios with another's, unless the underlying factors are studied.</p> <p>For more information on the finances of a particular Council, refer to the financial statements included in the Annual Report for that Council. Each Council is required to have its Annual Report open to inspection and to sell copies to any member of the public.</p>

① Ratio for 2000/01 may be slightly distorted due to variance from other years in definition for operating income.

+ The debt servicing ratio is abnormally high as it includes a one off debt swap transaction with Ipswich Water Business Unit.

✗ Includes the payout of all external loans by Council during the 99/00 Financial Year. Therefore the resulting debt servicing ratio is comparatively high to previous years.

< Council's debt servicing figure is high as Council totally paid out its road and sewerage loans as a one off accelerated debt repayment during the financial year.

NS Not supplied.

# Residential Rating

# 2003/04

## Residential rating

---

The *Local Government Act 1993* provides local governments with the following wide range of charging mechanisms.

A **general rate** is based on the unimproved value (UV) of each parcel of land and is applied on the same basis to all rateable land in the local government's area.

A **differential general rate** is also levied on the UV of each parcel of land. A local government may, however, apply different rates to different categories of land in the area. In the table, general rates and differential general rates are shown in the column headed general rate.

(Note: Differential general rates are levied in lieu of a single uniform general rate, not in addition to a general rate.)

A **minimum general rate** may be fixed in respect of a general rate or differential general rate.

A **separate charge** is a fixed amount levied on each property in the local government area. It is in addition to the general rate or differential general rate and is used to fund a specific facility or service (eg. roadworks, environment and tourism levies).

A **separate rate** is similar to a separate charge but is levied on the UV of land at the same rate on all land in the local government area.

**Special rates** relate to a service or facility or activity which is of particular benefit to certain properties (benefited properties). The rate is levied in respect of those properties on the basis of the UV.

A **special charge** is similar to a special rate but is a fixed amount charged on each benefited property.

A local government may make and levy a separate rate/charge or special rate/charge for any service, facility or activity.

Some of the services, facilities or activities that local governments have charged as separate or special rates include: rural fire levy, environmental purposes, water, infrastructure replacement, swimming pools, rural roads, rural electrification and electricity.

The amount of the rate may vary according to the extent to which, in the local government's opinion, the land has or will specially benefit from, or has or will have access to the service, facility or activity. The local government must also identify the rateable land to which the rate or charge applies (eg. the whole of the local government area or just the rural sector area only).

**Utility charges** relate to the supply of water, gas, sewerage or cleansing services and may be made on a variety of bases including rates based on the UV, fixed charges per property, consumption charges or a combination of both (a two-part tariff).

Local governments may allow a **discount** for prompt payment of rates. The level of discount is determined by local governments and can be set as either a percentage or a flat amount.

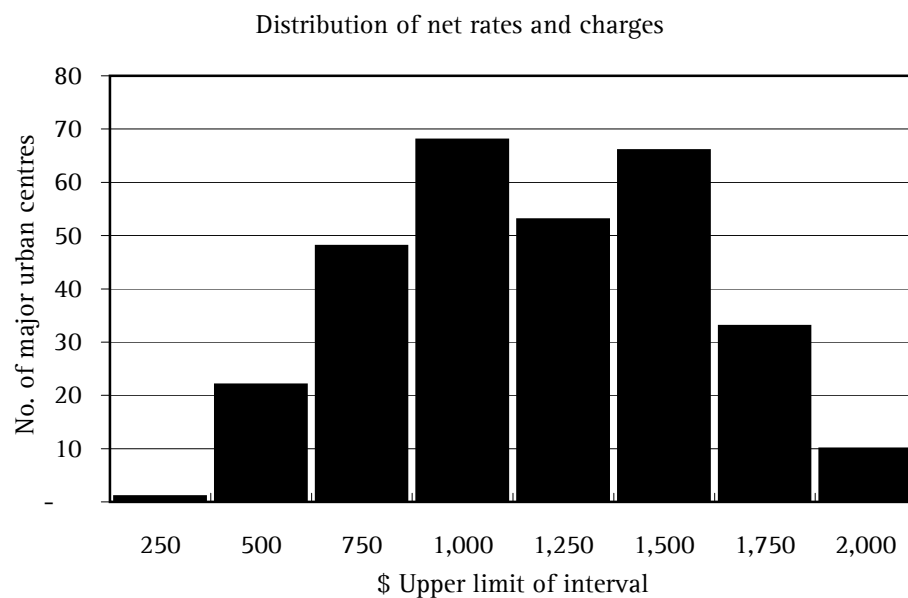

In view of the variety of services provided by local governments and the different charging mechanisms used, rates and charges vary widely. In making comparisons between local governments, these differences must be taken into account. The size and location of the local government will also impact upon the costs of service provision. These factors should also be considered.

The Residential Rating tables show the rates and charges applied, under the 2003/04 and 2004/05 Budgets, to the average residential property in the main urban localities in each local government area.

The 2003-04 Residential Rating table shows the range of net rates and charges made by local governments in the 2003/04 financial year.

Minimum	Lower quartile	Median	Upper quartile	Maximum
119	774	1,076	1,409	4,890

The distribution of those charges is shown in the chart below. The frequency represents the number of major urban centres within each range. It does **not** represent the number of residential properties within each urban centre or within each \$ interval.

Local government – by ACLG	Major urban centre/s	Average residential valuation	Minimum general rate	General rate	Any separate/ special rate/ charges	Utility charges			Total rates and charges	Discount	Net rates and charges

## – Total Rates, Charges and Other Revenues

# 2003/04

## Revenue information – *Total rates, charges and other revenue*

The Revenue information – *Total rates, charges and other revenue* table shows total rates and charges for both the 2003/04 and 2004/05 financial years for each local government, as well as showing other revenue and total revenue amounts for these years.

The following table shows the range of total rate and utility charges levied for the two years 2003/04 and 2004/05. A total of 114 Councils provided the relevant data.

Data item per local government	Minimum	Lower quartile	Median	Upper quartile	Maximum
Est. General Rates: 2004/05	207,000	1,576,604	3,204,978	9,477,548	428,450,000

# Arrears of Rates and Charges

# 2003/04

## Arrears of rates and charges

The Arrears of rates and charges table shows total rate arrears for local governments.

For consistency, the rate arrears figures for the 2003/04 and 2004/05 financial years are separated into arrears from general, separate and special rates and charges and arrears from utility charges.

The following table shows the range of total rate and utility charge arrears for the two years. A total of 110 local governments provided the data.

Data item per local government	Lower quartile	Median	Upper quartile	Maximum
Total Est. Arrears: 2004/05	59,305	188,650	697,250	7,914,460
Total Arrears: 2003/04	75,151	194,406	750,007	7,762,335

Distribution of the total rate arrears for 2003/04 is shown in the following chart (excluding Brisbane).

Local government – by ACLG	Rates and charges arrears															
	General rates		Separate/rate charge		Special rate/charge		Water charges		Sewerage charges		Cleansing charges		Interest on overdue rates		Total arrears

# Comparative Information – Functional

2003/04

# Personnel

## – Part 1

# 2003/04

Personnel	
PI P1 Efficiency	Number of employees per 100 capita
Objective:	To measure the level of staff servicing relative to population size.
Formula:	$\frac{\text{Total full-time equivalent employees} * 100}{\text{Total permanent population within the shire}}$
Influencing factors:	<ul style="list-style-type: none"> <li>• level of non-resident users of services</li> <li>• type and extent of service delivery provided</li> <li>• council policies and procedures</li> <li>• level of contracting out and resource sharing</li> <li>• economic/population growth</li> <li>• topography and geographic isolation</li> <li>• rural/residential</li> </ul>

\* FTE = Full-Time Equivalent.

NS Not supplied.

⌚ During the course of a year, Council experiences a substantial rise and fall in its FTE workforce due to the wet and dry seasonal effect on its road construction/maintenance. The figures provided are as at end of June, around the peak of the Council's workforce, but FTE will fall by approximately 20 over the wet season.

# Personnel

## – Part 2

2003/04

Personnel			
PI P2 Efficiency	Wages and salaries (including on-costs) as a percentage of total expenditure	PI P3 Efficiency	Number of employees per \$1 million total operational expenditure
<b>Objective:</b>	To monitor the impact of labour costs on total expenditure.	<b>Objective:</b>	To measure the level of staff servicing relative to total Council operational expenditure.
<b>Formula:</b>	$\frac{\text{Total wages and salaries (including on-costs)}}{\text{Total operational expenditure of Council}}$	<b>Formula:</b>	$\frac{\text{Total full-time equivalent employees} * 1,000,000}{\text{Total operational expenditure of Council}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• number of full-time/part-time staff</li> <li>• level of contracting out</li> <li>• council budget, policies and procedures</li> <li>• tourism/seasonal population changes</li> <li>• skills base/remuneration level</li> <li>• ratio inside/outside staff</li> <li>• level of capital works program</li> <li>• absenteeism</li> <li>• training costs</li> <li>• employer superannuation</li> <li>• workers' compensation</li> <li>• over-award payments</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• type and extent of service delivery provided</li> <li>• council policies and procedures</li> <li>• level of contracting out and resource sharing</li> <li>• topography and geographic isolation</li> <li>• rural/residential</li> <li>• tourism/seasonal population changes</li> <li>• skills base/remuneration level</li> <li>• ratio inside/outside staff</li> <li>• level of capital works program</li> <li>• absenteeism</li> <li>• training costs</li> <li>• employer superannuation</li> <li>• workers' compensation</li> <li>• over-award payments</li> </ul>

Personnel	
<b>PI P4</b>  Effectiveness	<b>Percentage of work time lost due to accident</b>
<b>Objective:</b>	To demonstrate the effectiveness of Council's workplace health and safety program.
<b>Formula:</b>	$\frac{\text{Total hours lost due to work related accident} * 100}{\text{Total person working hours per annum}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• ratio inside/outside staff</li> <li>• type and extent of service delivery provided</li> <li>• council policies and procedures</li> <li>• equipment standards</li> <li>• effectiveness of rehabilitation programs</li> <li>• workers' compensation</li> </ul>

🔔 Based on estimated total person working hours lost due to work related accidents.

# Reflects hours lost for claims lodged during period 2000/01. Does not include hours lost from claims lodged prior to 2000/01 even if the lost hours occurred in 2001/02.

🔍 Total wages and salaries reported includes capitalised labour component as there is no accurate split of these costs. For the purposes of reconciling operating expenses to employee expenses total capitalised costs ie. both materials and services and employee costs were backed out.

🌀 This figure is high due to the inclusion of extraordinary capital expenditure for 2000/01.

🕒 During the course of a year Council experiences a substantial rise and fall in its FTE workforce due to the wet and dry seasonal effect on its road construction/maintenance. The figures provided are as at end of June, around the peak of the Council's workforce, but FTE will fall by approximately 20 over the wet season.

➡ Based on estimated total working hours per annum.

❖ This figure is low due to the inclusion of extraordinarily high operating expenditure for 2000/01, which includes a loss on revaluation of non current assets of \$8,032,000. The estimated comparable figure is 39.2%.

NA Not available.

NS Not supplied.

# Road Maintenance – Efficiency

# 2003/04

Road maintenance			
PI R1 Efficiency	<b>Road maintenance expenditure per laned kilometre – sealed roads (rural and urban)</b>	PI R2 Efficiency	<b>Road maintenance expenditure per laned kilometre – unsealed roads</b>
<b>Objective:</b>	To demonstrate costs of maintaining sealed roads.	<b>Objective:</b>	To assess the efficiency of unsealed road maintenance.
<b>Formula:</b>	$\frac{\text{Total road maintenance exp. – sealed roads}}{\text{Total laned km of sealed roads}}$ <p>For:</p> <ol style="list-style-type: none"> <li>1. Urban</li> <li>2. Rural</li> <li>3. Total</li> </ol>	<b>Formula:</b>	$\frac{\text{Total road maintenance exp. – unsealed roads}}{\text{Total laned km of unsealed roads}}$ <p>Unsealed roads' includes gravelled, formed and unformed.</p>
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• economic/population growth</li> <li>• soil type</li> <li>• amount of rainfall and/or flooding</li> <li>• temperature extremes</li> <li>• topography</li> <li>• traffic volumes</li> <li>• heavy goods traffic</li> <li>• rural/urban road mix</li> <li>• seasonal traffic changes</li> <li>• distance to travel in order to repair sealed roads</li> <li>• materials source</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• economic/population growth</li> <li>• soil type</li> <li>• amount of rainfall</li> <li>• temperature extremes</li> <li>• topography</li> <li>• traffic volumes</li> <li>• heavy goods traffic</li> <li>• rural/urban road mix</li> <li>• seasonal traffic changes</li> </ul>

Note: Data for years prior to 2001/02 are not available due to changes in data definitions.

🚚 Includes rural road expenditure.

🔧 Variance from previous year due to review of road lengths under recent asset review/road audit.

⚖️ Based on estimate of breakdown of costs between sealed and unsealed roads. Costs may include reseals and some major betterment or reconstruction expenditure

❖ Road length more accurately identified.

🚧 Based on estimates for sealed/unsealed roads.

☑️ Road length does not include unformed roads.

! Variance from previous year due to restructure of asset data base and some validation errors.

➡️ All bitumen rural roads are under control of Department of Main Roads (DMR). Council contributes \$300,000 per year to DMR sealing jobs.

NA Not available/applicable.

NS Not supplied.

Road maintenance	
<b>PI R3</b>  Effectiveness	<b>Percentage of sealed roads 'resealed' (rural and urban)</b>
<b>Objective:</b>	To measure the rate at which sealed roads are being resealed.
<b>Formula:</b>	$\frac{\text{Total laned km of sealed roads 'resealed'}}{\text{Total laned km of sealed roads}}$ <p>For:</p> <ol style="list-style-type: none"> <li>1. Urban</li> <li>2. Rural</li> <li>3. Total</li> </ol>
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• economic/population growth</li> <li>• soil type</li> <li>• amount of rainfall</li> <li>• temperature extremes</li> <li>• topography</li> <li>• traffic volumes</li> <li>• heavy goods traffic</li> <li>• rural/urban road mix</li> <li>• seasonal traffic changes</li> </ul>

Local government – by ACLG	Percentage of sealed roads 'resealed' – total					Percentage of sealed roads 'resealed' – urban					Percentage of sealed roads 'resealed' – rural

Ⓜ Millmerran Shire Council reduced amount of expenditure in 1999/00 as a result of a concentration of works associated with the Millmerran Power Project. Council has budgeted for a substantial amount of carryover works in 2000/01 associated with local roads.

! Variance from previous year due to restructure of asset data base and some validation errors.

NA Not available/applicable.

# Water Services

## – Part 1

# 2003/04

## Water services

PI W1 Efficiency	Properties connected per 100km mains employed	PI W2 Effectiveness	Main breaks per 100km of mains
<b>Objective:</b>	To indicate the size of the service undertaken.	<b>Objective:</b>	To highlight the relative number of main breaks.
<b>Formula:</b>	$\frac{\text{Total number of property connections} * 100}{\text{Total km of reticulation}}$	<b>Formula:</b>	$\frac{\text{Total number of breaks in water mains} * 100}{\text{Total km of reticulation}}$ Main breaks include bursts and leaks.
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• topography</li> <li>• size of scheme/population served</li> <li>• distribution area</li> <li>• economic/population growth</li> <li>• source distance</li> <li>• source type</li> <li>• number of separate systems</li> <li>• rural/residential</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of assets</li> <li>• topography (mains pressure)</li> <li>• distribution area</li> <li>• maintenance program</li> <li>• size of scheme/population served</li> <li>• pipe materials</li> <li>• class of pipes</li> <li>• ground conditions</li> </ul>

" The 2001/02 reticulation figures do not include length of trunk mains resulting in inflated indicators for the year.

^ Significant variance from previous years due to building construction and conversion of single dwelling properties to multi-dwelling properties.

< Kilometres of mains now more accurately identified.

📞 Total number of properties served has been based on number of assessments issued.

! Significant variance due to recalculation of asset data.

➡ Properties served reflects the number of water charges including charges in respect of vacant land and Council connections.

⌘ Estimate only.

☑ Water main length for 2002 and earlier years excluded trunk mains.

□ Significant variance due to exclusion in previous years of vacant, but connected, properties.

# Significant variance from previous years due to inclusion of river and bore water connections and reticulation. Previous years' data only included river connections.

📍 Information relates to the Georgetown Water Supply system only (Council also operates a water supply system in Forsyth).

NA Not available/applicable.

NS Not supplied.

# Water Services

## Water services

<b>PI W3</b>	<b>Water OMA costs per property connected</b>	<b>PI W4</b>	<b>Water OMA costs per 100km of main</b>
Efficiency	(OMA = operations, maintenance and administration)	Efficiency	(OMA = operations, maintenance and administration)
<b>Objective:</b>	To assess the cost of providing a water supply service to the consumers.	<b>Objective:</b>	To indicate efficiency in operating and maintaining service.
<b>Formula:</b>	$\frac{\text{Total OMA costs}}{\text{Total number of property connections}}$	<b>Formula:</b>	$\frac{\text{Total OMA costs} * 100}{\text{Total km of reticulation}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of scheme</li> <li>• topography</li> <li>• size of scheme/population served</li> <li>• tourism/seasonal population changes</li> <li>• distribution area</li> <li>• economic/population growth</li> <li>• source distance</li> <li>• source type</li> <li>• number of separate systems</li> <li>• source quality</li> <li>• weather patterns</li> <li>• consumption per household</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of assets</li> <li>• type of scheme</li> <li>• size of scheme/population served</li> <li>• tourism/seasonal population changes</li> <li>• topography</li> <li>• population growth</li> <li>• climatic features</li> <li>• number of separate systems</li> <li>• material and class of pipes used</li> <li>• ground conditions</li> <li>• distribution area</li> </ul>

\* OMA = operations, maintenance and administration costs.

{ Variance is the result of review of cost allocations between water and sewerage expenditure and the elimination of inter entity transactions.

~ Significant increase in costs due to more accurate measurement of OMA costs.

! Significant increase in costs due to inclusion of income tax equivalents which were not included in previous years.

II Significant increase in costs due to higher inter program transfer costs.

& Significant variance from previous years due to expansive property development within City.

+ Significant decrease in costs due to reduction in internal administration fees.

" The 2001/02 reticulation figures do not include length of trunk mains resulting in inflated indicators for the year.

= Significant variance from previous years due to construction of new buildings and conversion of single dwelling properties to multi-dwelling properties. Previous years' costs also included depreciation.

❖ Significant decrease in costs due to reduction in bad debts.

☒ Significant increase in costs due to rise in bulk water costs.

< Significant increase in costs due to inclusion of depreciation expense.

✂ Excludes administration overheads.

# Decrease in OMA costs due to Esk, Gatton and Laidley Water Board providing water for no charge during 1999/2000.

℞ Significant variance due to increased costs of servicing the Oakey Abattoir.

> Significant variance due to increases in chemical, electricity, raw water and staff overtime costs.

^ Significant increase in costs due to emergency water provision for Dingo and increase in bulk water charge for Blackwater Water.

⚖ Significant variance due to recalculation of asset data.

□ Significant variance due to exclusion in previous years of vacant, but connected, properties.

>< Significant increase in OMA costs due to major mains cleaning program, high number water main breaks, repair work and/or desilting works.

⌘ Significant variance due to inclusion of river and bore water connections and reticulation. Previously only river water was included.

⌘ Total OMA costs includes bore and river water but properties serviced and kilometres of mains is river water only.

⌘ Significant variance due to National Competition Policy (NCP) adjustments.

⌘ Information relates to the Georgetown Water Supply system only (Council also operates a water supply system in Forsayth).

NA Not available/applicable.

NS Not supplied.

# Water Services – Effectiveness

# 2003/04

Water services			
PI W5 Effectiveness	<b>Water quality standard/guidelines Bacteriological compliance for faecal coliform and total coliform</b>	PI W6 Effectiveness	<b>Water quality standard/guidelines Physical chemical compliance</b>
<b>Objective:</b>	To indicate the extent to which water quality meets water utility's standards/guidelines for bacteriological parameters.	<b>Objective:</b>	To indicate the extent to which water quality meets water utility's standards/guidelines for physical chemical parameters.
<b>Formula:</b>	$\frac{\text{No. of samples which comply with guidelines} * 100}{\text{Total no. of samples tested}}$	<b>Formula:</b>	$\frac{\text{No. of samples which comply with guidelines} * 100}{\text{Total no. of samples tested}}$

\* Water testing is undertaken by the Bulk Water Service provided by the Townsville Thuringowa Joint Water Board.

🔔 Australian Drinking Water Guidelines (1996) enables testing for either thermotolerant (faecal coliforms) or E coli. Atherton tests for E coli.

🔒 Information relates to the Georgetown Water Supply system only (Council also operates a water supply system in Forsayth).

NA Not available/applicable.

NS Not supplied.

# Sewerage Services

## – Efficiency

# 2003/04

## Sewerage services

<b>PI S1</b>  Efficiency	<b>Properties connected per 100km mains employed</b>	<b>PI S2</b>  Efficiency	<b>Sewerage OMA costs per property connected</b>  (OMA = operations, maintenance and administration)
<b>Objective:</b>	To indicate the size of the service undertaken.	<b>Objective:</b>	To assess the cost of providing a sewerage service to the consumers.
<b>Formula:</b>	$\frac{\text{Total number of property connections} * 100}{\text{Total km of mains employed}}$	<b>Formula:</b>	$\frac{\text{Total OMA costs}}{\text{Total number of property connections}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• type of scheme</li> <li>• size of scheme/population served</li> <li>• topography</li> <li>• economic/population growth</li> <li>• collection area</li> <li>• distance to disposal facilities</li> <li>• number of separate systems</li> <li>• nature of properties connected</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of assets</li> <li>• type of scheme</li> <li>• size of scheme/population served</li> <li>• tourism/seasonal population changes</li> <li>• topography</li> <li>• economic/population growth</li> <li>• collection area</li> <li>• amount of rainfall</li> <li>• distance to disposal facilities</li> <li>• number of separate systems</li> <li>• pipe materials</li> <li>• detention times</li> <li>• effluent quality</li> <li>• flow per connection</li> <li>• nature of properties connected</li> </ul>

Sewerage services	
PI S3  Efficiency	<b>Sewerage OMA costs per 100km of main</b>  (OMA = operations, maintenance and administration)
<b>Objective:</b>	To indicate efficiency in operating and maintaining service.
<b>Formula:</b>	$\frac{\text{Total OMA costs} * 100}{\text{Total km of mains employed}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of assets</li> <li>• type of scheme</li> <li>• size of scheme/population served</li> <li>• tourism/seasonal population changes</li> <li>• topography</li> <li>• economic/population growth</li> <li>• collection area</li> <li>• amount of rainfall</li> <li>• distance to disposal facilities</li> <li>• number of separate systems</li> <li>• pipe materials</li> <li>• detention times</li> <li>• effluent quality</li> <li>• flow per connection</li> <li>• nature of properties connected</li> </ul>

\* OMA = operations, maintenance and administration costs.

~ Significant increase in costs due to more accurate measurement of OMA costs.

✖ Significant increase in costs due to inclusion of income tax equivalents which were not included in previous years.

II Significant increase in costs due to higher inter program transfer costs.

= Significant variance from previous years due to construction of new buildings and conversion of single dwelling properties to multi-dwelling properties.

↶ Substantial increase from 2000/01 principally due to changes in the amount of council corporate overheads attributed to Thuringowa Water.

< Kilometres of mains now more accurately identified.

⚙ Substantial increase in operations cost due to external contracting of a new and enlarged sewerage treatment plant.

✂ Significant increase in costs as Toogoolawah wetlands commissioned.

⚖ Significant increase in costs due to major repairs to aerators and introduction of higher-level sewage treatment.

✱ Significant increase in costs due to inclusion of new sewerage scheme.

> Significant increase in costs due to inclusion of depreciation expense.

➤ Previous years' data included all pedestals at multi-residential properties.

{ Property connections more accurately identified.

⚙ Significant variance from previous years due to recalculation of asset data.

⑧ Significant increase in costs due to inclusion of cross-subsidies.

⚙ Significant increase in costs due to servicing the Millmerran Power construction camp.

" Substantial increase from 1999/00 due to installation of Agnes Water sewerage system.

◆ Significant increase in costs due to replacement of rotary distributor

^ Significant increase in costs due to inclusion of Smaller Communities Assistance Program (SCAP) activity report.

Q Significant increase due to National Competition Policy (NCP) adjustments.

□ Significant increase in costs due to installation of new vacuum sewerage system which has required high maintenance.

! Significant increase in properties connected due to substantial new residential sub-division.

✖ Sewerage (CED) scheme not fully commissioned until July-August 2002.

+ Significant increase in costs due to sewerage scheme fully completed September 2002.

# Construction of sewerage scheme commenced October 2000 – no maintenance costs available for 2000/01.

NA Not available/applicable.

NS Not supplied.

# Sewerage Services – Effectiveness

2003/04

## Sewerage services

PI S4 Effectiveness	<b>Compliance with sewage effluent standards for BOD</b>	PI S5 Effectiveness	<b>Compliance with sewage effluent standards for suspended solids</b>
<b>Objective:</b>	To indicate the extent to which effluent quality meets acceptable standards with respect to Biological Oxygen Demand (BOD) parameters.	<b>Objective:</b>	To indicate the extent to which effluent quality meets acceptable standards with respect to suspended solids (SS).
<b>Formula:</b>	No. of samples tested which comply with the <u>relevant licence standard for BOD * 100</u> Total no. of samples tested for BOD compliance	<b>Formula:</b>	No. of samples tested which comply with the <u>relevant licence standard for SS * 100</u> Total no. of samples tested for SS compliance
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• treatment policy</li> <li>• type of system</li> <li>• level of treatment</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• treatment policy</li> <li>• type of system</li> <li>• level of treatment</li> </ul>

## Sewerage services

PI S6 Effectiveness	<b>Compliance with sewage effluent standards for nutrients</b>	PI S7 Effectiveness	<b>Confirmed sewer chokes per 100km mains</b>
<b>Objective:</b>	To indicate the extent to which effluent quality meets acceptable standards with respect to total nitrogen and total phosphorous.	<b>Objective:</b>	To highlight the relative number of chokes causing an interruption to service.
<b>Formula:</b>	$\frac{\text{No. of samples tested which comply with the relevant licence standard} * 100}{\text{Total no. of samples taken}}$	<b>Formula:</b>	$\frac{\text{Total no. of confirmed sewer chokes} * 100}{\text{Total km of mains employed}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• treatment policy</li> <li>• type of system</li> <li>• level of treatment</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• age of assets</li> <li>• type of scheme</li> <li>• size of scheme/population served</li> <li>• tourism/seasonal population changes</li> <li>• topography</li> <li>• economic/population growth</li> <li>• collection area</li> <li>• amount of rainfall</li> <li>• number of separate systems</li> <li>• pipe materials</li> <li>• flow per connection</li> <li>• maintenance program</li> </ul>

# Voluntary Environmental Management Plan with Environmental Protection Agency to rectify.

\* As a result of increased pressure on the Millmerran Sewerage Scheme, due to the operation of the Millmerran Power Construction Camp, Council received special relaxation in relation to its licensing conditions for the duration that the Camp was in operation.

NA Not available/applicable.

NS Not supplied.

# Waste Management

# 2003/04

## Waste management

PI G1 Efficiency	<b>Waste collection costs per property serviced</b>	PI G2 Efficiency	<b>Total tonnage of waste collected per property serviced</b>
<b>Objective:</b>	To assess the relative efficiency of domestic waste collection per property serviced.	<b>Objective:</b>	To measure the effectiveness of Council's efforts towards waste minimisation.
<b>Formula:</b>	$\frac{\text{Total domestic waste collection costs}^{\wedge}}{\text{Total no. of properties serviced}}$ <p>^ including recyclables</p>	<b>Formula:</b>	$\frac{\text{Total tonnage of waste collected}^{\wedge}}{\text{Total no. of residential properties serviced}}$ <p>^ including recyclables</p>
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• size and type of waste container</li> <li>• frequency of collection</li> <li>• type of recycling service in operation</li> <li>• distance to disposal facility</li> <li>• use of contractors</li> <li>• service standard specified in contract</li> <li>• distance travelled on route</li> <li>• extent of recycling</li> <li>• extent of mixed loads of domestic, commercial and industrial wastes</li> <li>• tourism/seasonal population changes</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• size of waste containers</li> <li>• frequency of collection</li> <li>• promotion and education</li> <li>• availability of council tip</li> <li>• new services/development</li> <li>• terrain</li> <li>• rural or residential areas</li> <li>• multi-residential properties</li> <li>• tourism/seasonal population changes</li> <li>• climate</li> <li>• demographics</li> <li>• economy (eg. tourism)</li> </ul>

Waste management	
<b>PI G3</b>  Effectiveness	<b>Total tonnage of waste collected per bin serviced</b>
<b>Objective:</b>	To measure the effectiveness of Council's efforts towards waste minimisation.
<b>Formula:</b>	$\frac{\text{Total tonnage of waste collected}^{\wedge}}{\text{Total no. of domestic waste bins serviced}}$ <p>^ including recyclables</p>
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• sizes and types of waste containers</li> <li>• frequency of collection</li> <li>• promotion and education</li> <li>• availability of council tip</li> <li>• new services/development</li> <li>• terrain</li> <li>• rural or residential areas</li> <li>• multi-residential properties</li> <li>• tourism/seasonal population changes</li> <li>• climate</li> <li>• demographics</li> <li>• economy (eg. tourism)</li> </ul>

⌘ Costs for 1999/00 included a one-off collection of bulky items from kerb-sides.

⊖ Excludes recycling bins.

✕ Number of residential 'properties serviced' includes cane farms with houses and vacant properties that are not provided with a service.

% Estimate only.

⚡ Commercial in confidence information. Not available for release.

◀ More accurate measure of tonnage compared to previous years.

⚖ Significant variance due to previous years' inclusion of costs associated with disposal.

⚖ Total tonnage calculated from annual survey of 2,000 premises.

" Total tonnage of waste now accurately measured by weighbridge.

± Variance due to revised costing of garbage collection truck and overhead allocation.

⚖ Weights obtained by conversion of volume using industry volume/weight conversion rates.

\* Significant variance between years due to commencement of new waste collection contract.

~ Significant increase due to previous years' exclusion of recycling tonnage.

{ Significant decrease in costs due to Council entering into a new Waste Management Contract at a significantly reduced cost.

< Previous years' tonnage included self haul.

+ Includes domestic and some commercial and industrial collection.

■ Includes bulk bins converted to equivalent wheelie bin volume.

□ Significant variance between years due to service previously being contracted out.

> Total waste collection costs only includes the cost of contract payments plus administration costs.

⊠ Tonnage of waste collected does not include any allowance for recycling. Estimated weights obtained by conversion of volume using industry conversion rates.

^ Significant variance due to previous years' inclusion of commercial and industrial waste collection.

◆ Based on total waste costs including transfer stations and/or refuse tips operational costs.

⊠ Significant variance due to 2000/01 calculations based on one service per property per week whereas the 1999/00 were based on two services per property per week.

⊠ Significant increase due to growth/expansion of service throughout Shire.

! Significant increase in costs due to the inclusion of large general waste depository bins for rural sub-divisions.

⊠ Previous years' excluded waste management and provision of bins costs.

= Significant increase in costs due to the implementation of Full Cost Pricing and inclusion of truck costs which were previously charged to the plant.

NA Not available/applicable.

NS Not supplied.

Parks and gardens	
<b>PI PG1</b>  Efficiency	<b>Cost of maintaining parks and gardens per hectare maintained</b>
<b>Objective:</b>	To provide a comparative measure of the cost of service delivery for parks and gardens maintenance.
<b>Formula:</b>	$\frac{\text{Total expenditure on maintenance of parks/gardens}}{\text{Total hectares maintained}}$
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• condition of parks/gardens</li> <li>• tourism/seasonal population changes</li> <li>• population density</li> <li>• ground conditions</li> <li>• climatic and regional conditions</li> <li>• location of parks/gardens</li> <li>• service contracted out/provided in-house</li> <li>• council policies and practices</li> </ul>

Local government – by ACLG	Region	Annual mean temperature (deg C)	Annual mean rainfall (mm)	Total area of shire (sq km)	Total hectares of parks and gardens maintained	Cost of maintaining parks and gardens per hectare maintained \$

📉 Mean temperature and rainfall figures sourced from the Commonwealth Bureau of Meteorology website at [http://www.bom.gov.au/climate/averages/tables/ca\\_qld\\_names.shtml](http://www.bom.gov.au/climate/averages/tables/ca_qld_names.shtml).

! Mean temperature and rainfall figures sourced from the ABS *Integrated Regional Database '96*.

➤ Variance due to more accurate calculation of costing and/or hectare data.

+ Variance from previous years due to increase in hectares resulting from audit of the parks and reserves maintained by Council.

⊗ Significant decrease in expenditure as hectares data for previous years included reserves.

✳ Council applies full cost pricing for works and services.

₪ Reduction in expenditure per hectare due to Council taking control of additional reserve land and/or parkland.

✂ Significant decrease in expenditure per hectare due to inclusion of the Round Gladstone Trail.

📈 Significant decrease in expenditure per hectare due to council taking control of Lake Moondarra Recreation Areas, ie. an increase of 41 hectares from 1999/2000.

⌘ Significant increase in costs due to the acquisition of additional parkland from subdivisions/development within the Shire.

< Significant increase in expenditure due to upgrade of two parks as part of Queensland Heritage Trail Network.

❖ Maintenance cost includes other recreational facilities such as swimming pools, showgrounds, public conveniences, nurseries and parks.

# Includes maintenance of roadside grass.

= Significant decrease in expenditure as previous years' calculations included showgrounds.

{ Public facilities maintenance omitted.

⚖ Previous year did not include toilets and sportsfield.

^ Significant increase in expenditure due to the employment of an additional full-time employee.

" Significant variance from previous years due to the inclusion of the recreational dam and surrounding parkland.

> Significant increase in expenditure per hectare due to reduction in area of town common and inclusion of cost for Neem tree eradication project.

NA Not available/applicable.

NS Not supplied.

# Library Services

## – Part 1

# 2003/04

## Libraries

PI L1 Efficiency	Expenditure per capita	PI L2 Effectiveness	Issues per capita
<b>Objective:</b>	To measure the cost of providing the service on a per capita basis.	<b>Objective:</b>	To measure unit issues on a per capita basis.
<b>Formula:</b>	$\frac{\text{Total expenditure on library services}}{\text{Total permanent population within Council boundaries}}$	<b>Formula:</b>	$\frac{\text{Number of issues recorded}}{\text{Total permanent population within Council boundaries}}$ <p>Need to recognise that issues are only one aspect of a library service – the in-house use of materials is also an important service.</p>
<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• size of library service (independent v Country Lending Service)</li> <li>• type of library service (regional, mobile)</li> <li>• population characteristics</li> <li>• percentage of total Council budget</li> <li>• spread of opening hours</li> <li>• level of services offered</li> <li>• extent of technology</li> <li>• extent of outsourcing</li> <li>• collection districts</li> <li>• use of services by persons residing outside the shire</li> <li>• State Government funding</li> </ul>	<b>Influencing factors:</b>	<ul style="list-style-type: none"> <li>• type of library and spread of hours</li> <li>• independent library v Country Lending Service</li> <li>• location of library – rural v metropolitan</li> <li>• levels of service provided</li> <li>• number of registered borrowers</li> <li>• availability of technology</li> <li>• length of loan period</li> <li>• no. of items which can be loaned at any one time</li> <li>• age of stock</li> <li>• population characteristics</li> <li>• proportion of non-loan materials to loan materials</li> <li>• proportion of non-resident users</li> </ul>

# Library Services

## – Part 2

2003/04

Libraries			
PI L3 Service Measure	Library membership as a percentage of population	PI L4 Effectiveness	Total library visits per capita
Objective:	To show responsiveness of service.	Objective:	To measure the number of people who have visited the library during the year.  This measure should be viewed in conjunction with <i>Issues per capita</i> to highlight the utilisation of library services other than lending.
Formula:	$\frac{\text{Total library membership} * 100}{\text{Total permanent population within Council boundaries}}$	Formula:	$\frac{\text{Total number of library visits}}{\text{Total permanent population within Council boundaries}}$
Influencing factors:	<ul style="list-style-type: none"> <li>• diversity of services provided</li> <li>• type of service (regional, mobile)</li> <li>• population characteristics</li> <li>• how often library membership is culled</li> <li>• remote area distances</li> </ul>	Influencing factors:	<ul style="list-style-type: none"> <li>• size of library service</li> <li>• type of library service (regional, mobile)</li> <li>• type of collections held</li> <li>• population characteristics</li> <li>• spread of hours</li> <li>• level of services offered</li> <li>• expenditure on stock</li> <li>• age of collection</li> <li>• lack of technology</li> </ul>

## Terrain and Soil Types

# 2003/04

## Terrain and soil types

Soil types are classified into four broad groups: soils generally without limiting chemical or physical properties; soils with predominantly chemical limitations; soils with predominantly physical limitations; and organic soils. A maximum of four soil units are recorded for each local government together with the proportion of the local government area in that soil unit, in rounded 20-percentiles.

### Soil classes:

<p>A. <i>Soils without limiting chemical or physical properties</i></p> <p>Deep loams and duplex soils without subsurface bleaching</p> <p>1 Deep loams</p> <p>2 Duplex soils</p> <p>B. <i>Soils with predominantly chemical limitations</i></p> <p>Deep highly structured soils with high initial fertility</p> <p>3 Structured loams</p> <p>4 Structured clays</p> <p>5 Structured earths</p> <p>Soils naturally low in nutrients</p> <p>6 Earthy loams</p> <p>7 Organic loams</p> <p>8 Earthy clays</p> <p>9 Massive earths</p> <p>10 Yellow duplex with gravel</p> <p>Calcareous soils</p> <p>11 Calcareous sands</p> <p>12 Calcareous earths</p> <p>Saline soils</p> <p>13 Saline loam soils</p> <p>14 Saline clay soils</p> <p>15 Red duplex with crust</p>	<p>C. <i>Soils with predominantly physical limitations</i></p> <p>Deep course-textured soils</p> <p>16 Deep sands</p> <p>Cracking clays</p> <p>17 Finely structured clays</p> <p>18 Coarsely structured clays</p> <p>Hard-setting soils with dispersible clay subsoils</p> <p>19 Duplex with spotted bleaching</p> <p>Soils with periodic subsurface water-logging</p> <p>20 Bleached sands with subsoil pans</p> <p>21 Duplex with bleached subsurface</p> <p>Soils with periodic subsurface water-logging</p> <p>22 Clay with gleyed subsoil</p> <p>23 Gley duplex</p> <p>Shallow soils</p> <p>24 Shallow sands on rock</p> <p>25 Shallow sands from laterite</p> <p>26 Shallow loams</p> <p>27 Shallow clays</p> <p>28 Largely bare rock</p> <p>D. <i>Organic soils</i></p> <p>29 Peaty sands/peats</p>
---	--

The categories of terrain used in the Terrain and Soil Types table represent the major changes in slope and local relief from plainslands through undulating, rolling and hilly to mountainous terrain.

Plainslands	–	alluvial tracks
Undulating	–	relief in 1 km <sup>2</sup> greater than 50m
Rolling	–	relief in 1 km <sup>2</sup> greater than 50m, less than 100m
Hills	–	relief in 1 km <sup>2</sup> greater than 100m, less than 200m
Mountainous	–	relief in 1 km <sup>2</sup> greater than 200m

# Glossary of Terms

2003/04

## Glossary of terms

---

### Access charge:

The fixed amount that is levied on each property per year with no annual water allocation (part of a two-part tariff). This is the component of each property's bill that does not vary with the amount of water used or sewerage produced.

### Average residential valuation (ARV):

The mean value for residential properties calculated from information supplied by the Department of Natural Resources and Mines, incorporating all land used for residential purposes within each major urban centre.

### Average residential water charge:

Total water charges levied for residential properties per urban centre divided by the number of residential properties serviced per urban centre.

### Basis for fixed or access charge:

The basis on which the water charge is calculated (eg. fixed, percentage of property value, meter size, pedestals, other).

### Basis for sewerage charge:

The basis on which the sewerage charge is calculated (eg. fixed, percentage of property value, meter size, pedestals/urinals, water consumption).

### Basis for trade waste charge:

The basis on which trade waste charges are calculated. The form of the trade waste charges may include both quality and quantity parameters.

### Category of land:

Categories used by the Department of Natural Resources and Mines (residential, rural, commercial/industrial, other).

### Consumption rate:

The charge per unit of consumption levied upon each customer for their water use (part of a two-part tariff). This is usually expressed as cents per Kilolitre. The same charge may not apply to each unit used by the customer. There may be steps in the charge as usage increases past certain levels.

### Cross-subsidies:

A cross-subsidy potentially exists when a class of consumers pays less than the marginal cost of providing the service, while another consumer class pays more in charges than the marginal cost of providing the service.

## Glossary of terms

---

### **Customer service obligation (CSO):**

A CSO may arise where a Council, to achieve a specific social or public purpose, imposes a requirement to supply services to a particular customer, a group of customers, or all customers at a price where such a supply is not in the commercial interest of the provider. If the Council decides that to achieve the specific purpose, even though the supply at that price is not commercially viable, the service should nevertheless be provided at that price, this could be a CSO. A common example is the provision of discounts to pensioners.

### **Excess consumption charge:**

Any charge for water used after the fixed charge annual allocation has been consumed.

### **Fixed charge:**

One charge per annum for water or sewerage services. Includes an access charge with an annual allowance or unlimited usage for water services.

### **Full cost pricing (FCP):**

The application of FCP means prices are charged for goods and services taking into account the full cost of providing the goods and services, including estimates of amounts equivalent to government taxes that are not otherwise payable to the Commonwealth, State or Local Government, and cost of funds advantage the local government obtains over commercial rates of interest because of State guarantees used for providing the goods or services.

### **Hectares of parks and gardens:**

Total number of hectares maintained by Council for open space beautification or leisure purposes. Includes public parks, gardens, recreational reserves or open air sports facilities, accessible to the public and free of charge.

### **Issues:**

The total number of items issued on loan by the library. Includes extensions of previous loans but not internal loans such as temporary reallocations or interbranch loans which are done automatically by a computer system.

### **Kilometres of mains employed:**

Total length of all trunk and reticulation mains, aquaducts, etc. (of all diameters) expressed in kilometres.

### **Laned kilometres:**

The number of lanes of traffic flow normally carried, excluding parking lanes. That is, the length of roads multiplied by the number of lanes available for through traffic and marked accordingly. For example, one kilometre of road with one lane of traffic flowing in each direction is equal to two laned kilometres.

### **Main breaks:**

Total number of bursts and leaks in all diameter mains, including leaks that can be fixed without shutting down the main.

## Glossary of terms

---

### Pricing structure for water:

The method of calculating the water charges to be levied on a property (eg. fixed charge with unlimited consumption; fixed charge plus an excess water consumption component; unit charge with an excess water consumption component; two-part tariff; or a hybrid of any of these).

### Properties served:

The number of properties receiving service is obtained from council rate records. Separately rated flats or units on one section are treated as separate properties.

### Rateable properties:

All land on which a general rate is levied by Council - Section 957 *Local Government Act 1993*.

### Road maintenance costs:

The routine and periodic maintenance expenditure on roads, excluding bridges and any betterment works (such as widening).

### Roads:

Includes all roads which local governments have responsibility for and are open to, and used by, wheeled traffic at 30 June, including roads declared under the *Transport Infrastructure (Roads) Act*. Excludes bridges, roads on private property and road reservations surveyed and/or shown on maps as dedicated roads, unless they are passable to, and used regularly by, public traffic at least part of the year.

### Rural roads:

Roads which are not urban roads as defined below.

### Sealed roads:

Roads with asphalt, bitumen or concrete surfaces, excluding roads with dust seal coats.

### Sewage effluent standards compliance:

The percentage of samples tested, for the purpose of compliance, that meet the utility's licensed standard.

### Sewer chokes:

The total number of confirmed partial or total blockages occasioning an interruption to the service.

### Sewerage OMA:

Includes all costs associated with the operation, maintenance and administration of the sewerage service (for transport, treatment and disposal).

### Sewerage properties connected:

The total number of properties connected to the sewerage system and separately billed for sewerage services.

## Glossary of terms

---

### Trade waste categories:

Categories used for the determination of trade waste approvals and charging.

### Trade waste charges:

Any charges levied to cover the cost of conveyance, treatment, disposal and recurring administration and overhead costs associated with trade waste control. These charges are separate to the service and usage charges for water and domestic sewerage.

### Unsealed roads:

Includes all gravelled, formed and unformed roads and tracks surveyed open to and customarily used by the public.

### Urban roads:

Roads of any surface with largely developed residential/commercial/industrial subdivisions where the lot size is generally less than one hectare.

### Waste collection:

Encompasses the kerbside collection of domestic waste, including recyclable waste, and transportation to a disposal point (landfill, tip, transfer station, etc.). May include some commercial/industrial waste that is collected in conjunction with the normal domestic waste stream.

### Water allowance:

The volume of water that is included at no additional cost with the fixed charge for water services.

### Water OMA:

Includes all costs associated with the operation, maintenance and administration of the water service (for bulk, treatment and distribution).

### Water properties connected:

The total number of properties connected to the service water system and separately billed for water supply.

### Water quality standard/Guidelines compliance:

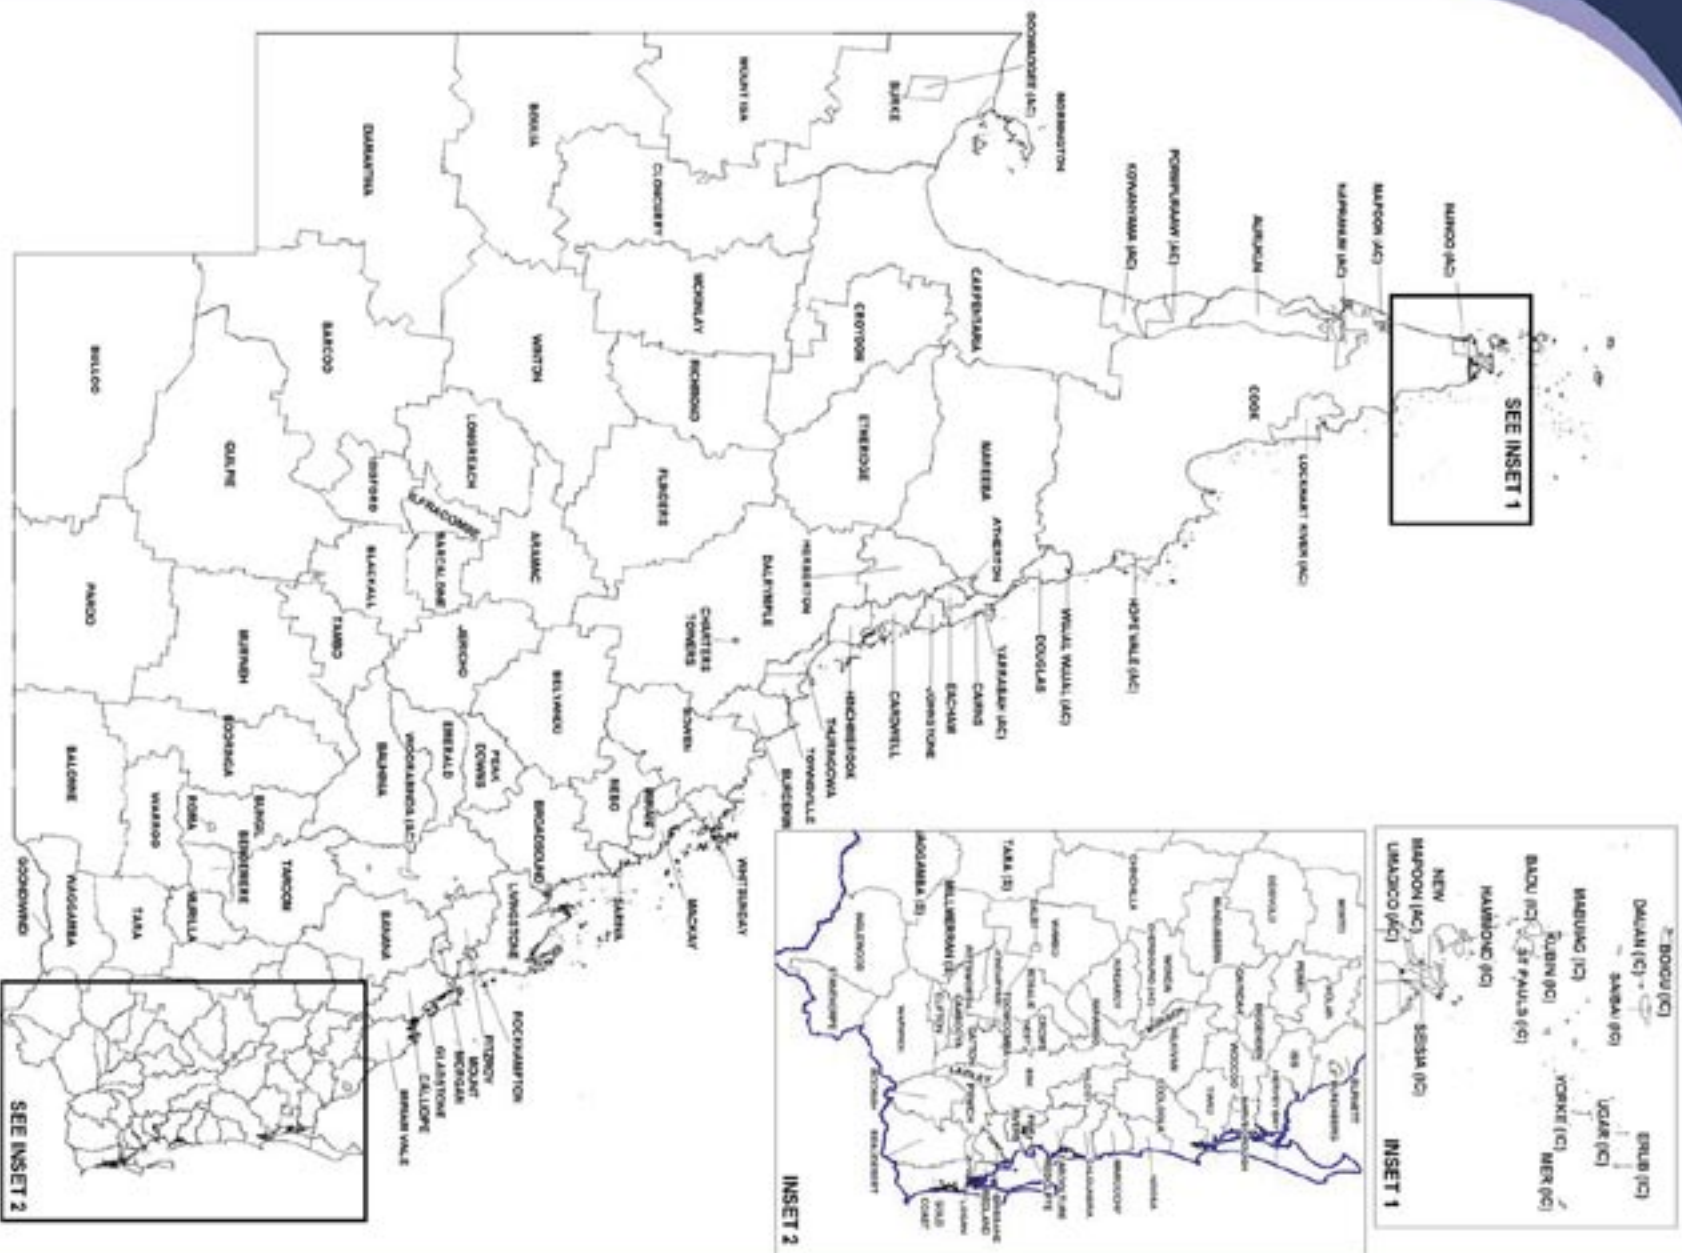

The percentage of samples meeting the Utility's Water Quality Standard (eg. the *Australian Drinking Water Guidelines*, National Health and Medical Research Council (NHMRC) Guidelines, 1996) with respect to bacteriological and physical chemical parameters.

## Australian Classification of Local Government

2003/04

## The Australian Classification of Local Government

The *Queensland Local Government Comparative Information 2003/04 Report* groups Queensland local governments according to the Australian Classification of Local Government. The classification system uses population, population density, population growth and location to identify 22 categories of local governments in Australia. Queensland local governments are categorised into 21 of these categories. Each category has a unique three-letter code which is based on the following criteria:

Urban/Rural	Type	Size	Identifiers	Category
<b>URBAN (U)</b>	<b>Capital City (CC)</b>			UCC
Population >20,000	<b>Metropolitan Developed (D)</b>	Small (S)	up to 30,000	UDS
	Part of an urban centre	Medium (M)	30,001-70,000	UDM
	>1,000,000	Large (L)	70,001-120,000	UDL
or	>600/sq km	Very Large (V)	>120,000	UDV
Population Density >30 persons per sq km	<b>Regional Towns/City (R)</b>	Small (S)	up to 30,000	URS
	Part of an urban centre with population <1,000,000 and predominantly urban in nature	Medium (M)	30,001-70,000	URM
		Large (L)	70,001-120,000	URL
or		Very Large (V)	>120,000	URV
>=90% of LGA population is urban	<b>Fringe (F)</b>	Small (S)	up to 30,000	UFS
	A developing LGA on the margin of a developed or regional urban centre	Medium (M)	30,001-70,000	UFM
		Large (L)	70,001-120,000	UFL
		Very Large (V)	>120,000	UFV
<b>RURAL (R)</b>				
An LGA with population <20,000	<b>Significant Growth (SG)</b>	Not applicable		RSG
and	Average annual population growth >3%, population >5,000 and not remote			
population density <30 persons per sq km	<b>Agricultural (A)</b>	Small (S)	up to 2,000	RAS
		Medium (M)	2,001-5,000	RAM
		Large (L)	5,001-10,000	RAL
and		Very Large (V)	10,001-20,000	RAV
<90% of LGA population is urban	<b>Remote (T)</b>	Extra Small (X)	up to 400	RTX
		Small (S)	401-1,000	RTS
		Medium (M)	1,001-3,000	RTM
		Large (L)	3,001-20,000	RTL
