1 Introduction

The Queensland Government will invest up to \$50 million to support workers affected by the closure of Glencore's Mount Isa copper mine, copper concentrator and the Lady Loretta Zinc Mine. Glencore's other assets in the region remain operational. The \$50 million package includes up to:

- \$20 million for an economic structural adjustment package, the Mount Isa Transition Fund (MITF), administered by the Department of State Development and Infrastructure (DSDI); and
- \$30 million to support resource project acceleration, administered by Queensland Treasury in conjunction with the Department of Resources.

These guidelines are for the \$20m MITF. DSDI has established the Mount Isa and Region Futures Advisory Committee (MIRFAC) to support the delivery of the MITF through place-based advice to government and comprises members of the Mount Isa community and stakeholders pertinent to the Glencore mine closures.

2 Objectives of the fund

The objectives of the MITF are:

- supporting job creation in Mount Isa for the local workforce directly impacted by Glencore's mining and processing closures.
- strengthening the Mount Isa economy, including the Mount Isa small business sector.
- strengthening the liveability and community resilience of Mount Isa.

 - The Project Lead is authorised to act on behalf of the other parties.
- The Eligible Applicant will need to provide written evidence of the arrangements between the Eligible Applicant and Project Partners for the Project, including that arrangements for managing project risks have been considered and documented.

3.2 Eligible and Ineligible Projects

- Eligible Applicants may seek funding for more than one Project.
- Each Project requires a separate Application.

Eligible Projects	Ineligible Projects ¹
<p>Eligible Projects are those that:</p> <ul style="list-style-type: none"> • align with at least one of the fund objectives. • demonstrate a need for State assistance to realise project outcomes. • seek funding of at least \$100,000 (excluding GST) to a maximum of \$2 million (excluding GST). ¹ The above list is not a definitive list of Ineligible Projects and consideration against the MITF objectives should be made in the first instance. If there are questions about a Project’s eligibility, please contact DSDI.

3.3 Infrastructure Projects

Successful Applicants must:

- own and operate any Project Infrastructure that is the subject of the Eligible Project; or
- have a Project Partner that will own and/or operate Project Infrastructure that is the subject of the Eligible Project and control the Project Site; and

4 How to apply

4.1 Key dates

- Key dates will be published on the DSDI website.
- Applications will only be assessed after the closing date.
- Applicants should check the DSDI website for updates.

4.2 Applying

Applicants should:

- submit an Expression of Interest (EOI) by the advertised closing date for their Project prior to submitting an Application. While the pre-lodgement EOI is not mandatory, it is strongly encouraged and recommended as the Department will be able to assist the Applicant with advice and direction on a proposed Application.
- submit an Application for their Project by the advertised closing date to be considered for assessment by the Department; and

In submitting multiple Projects:

- submit a separate EOI and Application where there are multiple, discrete projects that are not interdependent and could reasonably be delivered separately.
- each Application should specify the Applicant's preferred level of priority to be assigned to that Application. Please note that the Department reserves the right to assign a different level of priority to each Application at its absolute discretion.
- Applicants should consider their capability to deliver multiple Projects at the same time.

For more information on the Application process, see [5.1 Assessment and approval process](#).

4.4 Questions

- If you have any questions after reading these resources, email mountisaresponse@dasilgp.qld.gov.au.

5 How will Applications be assessed?

5.1 Assessment and approval process

The process entails:

- **EOIs** – The Department will seek funding proposals through a voluntary EOI process from potential Applicants.
- **EOI Review** – The Department will review the received EOIs and may provide advice to Applicants, including on considerations in submitting an Application. This advice may also include alternative opportunities for the Applicant to pursue project support.
- **Detailed Application** – Submission of an Application is mandatory to apply for funding.
- **Eligibility confirmation (Detailed Application)** – Applications will only proceed to assessment if both the Applicant and Project are confirmed to be eligible by the Department.
- **Assessment of Detailed Application** – The Department will, over a nominated Assessment Period:
 - assess the Application against the Assessment Criteria;
 - undertake due diligence, program benefit and probity checks; and
 - consult with other relevant Queensland Government agencies or external specialists, as required. The Department may provide details of each project to MIRFAC members for consideration and advice. MIRFAC members are required to declare any conflicts of interests and procedures will be implemented by the Chair of the MIRFAC to manage any conflicts of interest identified.
- **Moderation** – The DSDI Moderation Team will review assessments to ensure that the process is consistently applied across all Applications and to make recommendations to the Interdepartmental Assessment Panel.
- **Selection and recommendation** – An Interdepartmental Assessment Panel, chaired by the Department of State Development and Infrastructure including members from Queensland Treasury and the Department of Premier and Cabinet, will make the final recommendations.
- **Approval** - On receipt of the recommendations, the Minister or Ministers, will approve the funding allocations.
- **Notification** - Successful applicants will be notified by email and a conditional letter of offer provided, subject to the Applicant entering into a Funding Agreement with the State.
- If appropriate, the Department may undertake further rounds of funding until the Fund is closed.

5.2 Considerations in Application assessment

- In addition to meeting the Assessment Criteria, Projects will be given greater prioritisation if they:
 - best address the criteria outlined in '[5.3 Assessment Criteria for Detailed Applications](#)';
 - are able to deliver immediate jobs and benefits, rather than feasibility studies, business cases and other investigations;
 - provide a greater scale of benefits to Mount Isa in responding to funding objectives (such as the potential amount of jobs created, investment attracted and supply chain optimised);
 - provide value for money including the amount of financial co-contribution from funding partners;
 - would not be reasonably expected to be funded through other programs of government;
 - are supported by in-kind contributions and third-party financial contributions; and
 - meet key deliverability metrics, including consideration of key risks, stakeholder views, the capability and reputation of the entity delivering the proposal and having a realistic scope, budget and expected outcomes.

5.3 Assessment Criteria for Detailed Applications

- Once Eligibility is confirmed, Applications will be assessed against the Assessment Criteria set out in these Application Guidelines, noting that not all Applications will necessarily be funded.
- This is a competitive application and assessment process. Applications from Eligible Applicants for Eligible Projects will be assessed against the Assessment Criteria to determine the relative merit of each Project.
